

## **Vasilis Gabriel Michailidis**

Vasili was born on November 19th, 2007 in Athens, Greece to a Greek father and an Ethiopian mother. He spent the first seven years of his life in Addis Ababa, Ethiopia before moving to Athens.

At an early age, Vasilis developed a love for karting. His father recognized this passion and decided to purchase a go-kart for him. He registered Vasilis with the Kosmic Maitos racing team in 2016, and Vasilis continued to train and improve his skills.

In November 2019, Vasilis competed in the Mini category of the Greek Championship for the first time. He impressed everyone by securing the pole position and winning the race.

Vasilis moved up to the Junior category by the end of 2019 and won two IAME Greek championships in 2020 and 2021, as well as multiple races in other Greek competitions.

In 2021, Vasilis began competing at an international level with Ricky Flynn Motor Sports in the WSK championships. He quickly adapted and achieved great results. In the previous year, Vasilis started racing in the Senior category at WSK and FIA world championship with the Ward racing team, gaining valuable experience competing against older and more experienced pilots.

This year, Vasilis is racing with Forza Racing team and has already achieved impressive results in the WSK champion cup, competing at a high level against the world's top pilots.

As a family, we fully support Vasilis and will continue to do so. We are actively seeking companies or individuals to support him and help him realize his full potential and reach the top of his sport where he belongs.
